

International Conference and Exhibition on Reinforced Plastics

# ICERP 2023

Composites - Versatile Future Materials

10<sup>th</sup> Mega Event of the  
Indian Composites Industry

18<sup>th</sup> - 20<sup>th</sup>  
JANUARY  
2023

Organized by :

**FRP  
INSTITUTE**

In Partnership With

**INDIAN TECHNICAL TEXTILE  
ASSOCIATION**

**BOMBAY EXHIBITION CENTRE, GOREGAON (EAST), MUMBAI, INDIA**

- ◆ Exhibition
- ◆ Process Demos
- ◆ Technical Sales Presentations
- ◆ Networking Programme
- ◆ Conference
- ◆ Product Display
- ◆ ICERP-JEC Innovation Awards
- ◆ Business Meetings

WORLD OF COMPOSITES

## ICERP 2023 - A GATEWAY TO THE INDIAN COMPOSITES MARKET

The Indian composites industry is expected to have higher growth rate in the next few years due to high local demand. The relatively stable Indian economy offers opportunities for international companies for making investments in Indian composites industry. The key growth drivers of the industry are Wind Energy, Infrastructure, Mass Transportation, Automobile, Building and Construction, Telecommunication, Aerospace, Defence sector, etc. Huge allocation of funds for Defence by Indian government creates enormous new growth opportunities for composites in Defence sector.

### ICERP 2023 Exhibition:

The event will be an ideal platform for the companies to showcase their capabilities to global composites fraternity and to explore new business opportunities in India. An increased number of foreign exhibitors are expected to participate in the event. Exhibition will provide opportunities for the entire value chain in the Indian composites industry.

### ICERP 2023 Conference:

The conference will focus on the latest developments on composites and presentations will be given by the leading Indian and global composites experts. It will also provide update on composites in terms of raw materials, process developments, machinery, case studies etc.

### ICERP-JEC Innovation Awards Programme :

To promote and encourage innovations on composites carried out in India, FRP Institute in association with JEC Group, France gives away ICERP-JEC Innovation awards during the event. These awards are to encourage Indian Composites companies to create value for their customers and also to create international recognition.

### ICERP 2023 Business meetings :

There will be business meetings which will focus on technology tie-ups with global leaders for up-gradation of technology and for business growth. It will also explore new business opportunities in the market sectors which are not tapped in India.

### ICERP 2023 Composites Product display and Process Demonstrations :

There will be a display of selected composites products and innovative products developed in India and also there will be live process demonstrations. The products showcase and process demonstrations will give an opportunity for the end users to learn the latest developments in the composites products.

### ICERP 2023 Technical Sales Presentations :

The aim of technical sales presentation programme is to create a platform for the Industry to give an update on their new developments/innovations and other advancements to their customers as well as to the prospective customers and end users. This is basically a techno-commercial programme.

### Indian Technical Textile Association (ITTA) :

ITTA is the only association of the Technical Textile Industry in India covering all 13 segments, including Composites. The office of the Textile Commissioner, MoT, Govt facilitated the formation of ITTA in January 2010. The objective of ITTA is to promote, support, develop and increase the production, consumption, and export of technical textiles to make India a powerhouse of technical textiles in the days to come. ITTA has nearly 400 members, including members from EU & Japan and representing the entire technical textile value chain from raw material to finished goods producers, machinery manufacturers, consultants, centers of excellence and R&D/Academic institutions. Its members contribute 68% (FY 2020-21) of the total exports of 207 technical textile items from India

### About FRP Institute:

FRP Institute is a not-for-profit professional society of the Indian Composites fraternity and was founded in the year 1999. It has members from all over India and it works in close collaboration with Industries and Institutions for upgrading the composites technology and to promote the growth of the Indian composites industry. FRP Institute helps in outsourcing of composite raw materials and products from India. FRP Institute facilitates tie-ups between Indian companies and companies abroad.
